VANCOUVER SENATE
MINUTES OF JANUARY 21, 1998

Attendance
Present: President M. C. Piper (Chair), Vice President Academic B. C. McBride, Dean F. S. Abbott, Dr. P. Adebar, Acting Dean D. R. Atkins, Dr. I. Benbasat, Dr. J. D. Berger, Dean C. S. Binkley, Dean J. Blom, Dr. G. W. Bluman, Mr. P. T. Brady, Professor P. T. Burns, Mr. A. Chui, Ms. L. Chui, Dr. V. Froese, Dr. J. H. V. Gilbert, Dr. V. Gomel, Mr. C. L. Gorman, Dean F. Granot, Dr. A. G. Hannam, Rev. J. Hanrahan, Dr. P. G. Harrison, Dr. F. G. Herring, Dr. M. R. Ito, Mr. J. Keng, Dr. S. B. Knight, Mr. A. Kwong, Ms. E. Lai, Ms. S. Lerchs, Mr. D. K. Leung, Dr. M. Levine, Dr. D. M. Lyster, Dr. D. J. MacDougall, Dr. M. MacEntee, Dr. P. L. Marshall, Dr. K. May, Dr. W. R. McMaster, Mr. W. McMichael, Dean pro tem D. F. Measday, Mr. S. Mui, Mr. B. Murphy, Dean S. Neuman, Mr. J. Nobbs-Thiessen, Mr. V. Pacradouni, Mr. R. L. de Pfyffer, Dr. W. J. Phillips, Mr. G. Podersky-Cannon, Dean M. Quayle, Ms. C. Quinlan, Professor J. A. Rice, Dr. H. B. Richer, Dr. D. P. Rolsen, Dr. H. J. Rosengarten, Dr. R. W. Schutz, Dean N. Sheehan, Dr. C. E. Slonecker, Ms. N. Sonik, Dr. J. R. Thompson, Dr. M. Thompson, Dr. S. Thorne, Dr. W. Uegama, Dr. J. Vanderstoep, Mr. D. R. Verma, Dr. P. A. Vertinsky, Dr. D. L. Williams, Dr. R. A. Yaworsky.
Regrets: Chancellor W. L. Sauder, Mr. T. Au Yeung, Dr. P. C. Burns, Dean J. Cairns, Mr. H. D. Gray, Dean M. Isaacson, Dr. V. J. Kirkness, Ms. G. Lau, Mr. O. C. W. Lau, Professor P. T. K. Lin, Mr. T. P. T. Lo, Mr. S. Lohachitraront, Mr. R. W. Lowe, Mr. W. B. McNulty, Mr. A. H. Soroka, Ms. L. M. Sparrow, Mr. A. Tse, Dr. W. C. Wright Jr., Dean E. H. K. Yen.

Senate membership
EX-OFFICIO MEMBERS
Dr. Barry C. McBride, Vice President Academic and Provost
Dr. David F. Measday, Dean pro tem of the Faculty of Science

Minutes of the previous meeting
Dean Neuman
Dean Sheehan
That the minutes of the fourth regular meeting of Senate for the Session 1997-98, having been circulated, be taken as read and adopted.
Carried.

Dr. Knight, Vice Chair of Senate, assumed the chair for the next item of business.

Business arising from the Minutes
PRESIDENT’S REPORT ON APEC (P.11776)
President Piper drew attention to the Report to the Senate and Board of Governors on Post-APEC Activities, which had been circulated at the meeting. The President then
called on Professor Dennis Pavlich, Associate Vice President of Academic and Legal Affairs, to speak to the report.

As stated in the report, Professor Pavlich noted that The University of British Columbia served as the venue for the APEC Economic Leaders' Meeting (AELM) which took place on the campus November 25, 1997. Although the international community considered the APEC Leaders' Meeting at UBC to be a significant success, serious concerns were raised regarding the actions of the Government and the RCMP in dealing with demonstrations and protests on the campus. Professor Pavlich drew attention to a section of the report headed "Community Concerns" giving details of the amount of correspondence received from the campus and broader community regarding APEC and the actions of the police in the period leading up to and during the AELM. The University has acknowledged these communications, indicating that detailed responses to concerns expressed in the letters received are to follow. The University has also responded to applications under the Freedom of Information and Protection of Privacy Act relating to events surrounding the AELM. Regarding the issue of student arrests, Professor Pavlich stated that several complaints have been made to the RCMP Public Complaints Commission and the President has asked that a report be given on the status of these complaints once they have been addressed and dealt with by the Complaints Commission. In addition, the RCMP are conducting their own internal investigation and the President has been told by the superintendent in charge that information resulting from this investigation will be made available to the University. Professor Pavlich noted that the President has also communicated with the Solicitor General seeking assurance that all investigations will be independent and properly conducted. In addition, the Chair of the Board of Governors has written to the Prime Minister in this regard.
Professor Pavlich stated that the President has taken the position that there will be no formal statement by UBC administration until the release of these reports.

Referring to the Post-APEC Forum, which was held to discuss the question: "What is the role of Universities in a democratic society?", Professor Pavlich noted that the principal points made by the panelists during their opening remarks included:

- Wes Pue, Faculty of Law: Canadians' rights were suppressed during APEC and the Prime Minister's Office interfered with the security arrangements made by the RCMP.
- Shehnaz Karim/Jill Chettiar, APEC Alert: UBC's decision-making mechanisms are not democratic and should be examined; there was no true campus consultation regarding APEC; and the Post-APEC Forum was not a valid process to examine the issues.
- Martha Piper, President, UBC: The fundamental purpose of the University is not the resolution of political issues, but to serve, through disciplined intellectual activity and critical thinking, as a forum for uninhibited, robust and wide-open debate.
- Arnab Guha, President, APEC University Forum: UBC's involvement in APEC provided an opportunity for a "fantastic level of discourse" and a great deal of student involvement. The University community should clarify what its role should be in future, and that involvement should go beyond simply serving as a venue.

Professor Pavlich concluded his remarks by highlighting some of the critical and positive comments from the audience, which included expressions of appreciation for President Piper's decision to hold the Post-APEC Forum.

In response to a query, President Piper stated that it could be at least two months before reports are received from the RCMP and the Public Complaints Commission.

President Piper then moved the following motion which had been circulated at the meeting:
With respect to the APEC Conference and future international gatherings, that in considering future opportunities to serve as the venue for major international meetings organized by governments, the University community engage in a full and informed consultative process to ensure that the mission of the University is honoured, that the maximum academic and intellectual benefit accrues to the University and that democratic principles of free speech and assembly, as well as individual human rights, are fully protected.

MOTION BY DR. MICHAEL MACENTEE RE: APEC (P. 11777)

In view of the foregoing report, Dr. MacEntee suggested that discussion of the motion, which had been postponed at the previous meeting, be tabled until the University receives reports from the RCMP and the Public Complaints Commission.

\[ \text{Carried.} \]

President Piper resumed the Chair.

Chair's remarks and related questions

HONORARY DEGREE RECIPIENTS

President Piper informed Senate that those listed below have accepted invitations to receive honorary degrees at the 1998 Congregation Ceremonies:

- Patricio Aylwin
- John Peter Bell
- Alan Cairns
- Stephen Michael Drance
- Martha Henry
- H. Peter Oberlander
- Jeffrey Simpson
- John Spears
- David William Strangway

\[ \text{Carried.} \]
TRIP TO ASIA
The President gave a brief report on her recent trip to Asia, stating that this was her first trip as a representative of UBC. Dr. Piper was accompanied by a variety of UBC representatives, including Dean Frieda Granot, Mr. Grant Ingram, and Mr. Larry Sproul. The group visited Hong Kong and Taipei and had a wonderful meeting with the Johanneans who have so graciously supported St. John's College on campus. They also met with a variety of supporters of UBC such as alumni groups in Hong Kong and Taipei, and with senior officials in the government, the Canadian Council in Hong Kong and the Canadian Trade Commissioner in Taipei. Dr. Piper said that it was fair to say that UBC is extraordinarily well positioned in both of those areas of the world and that she was extremely privileged to represent everyone at UBC in this capacity. Dr. Piper said that it was an extremely positive trip and one that everyone could take pride in because it represented very effectively the work that goes on at UBC.

Admissions Committee
Dr. Harrison, chair of the committee, presented the report.

FACULTY OF GRADUATE STUDIES - M.SC. AND PH.D. IN HUMAN NUTRITION
Dr. Harrison noted that the proposal circulated contained changes to the program description for the M.Sc. and Ph.D. in Human Nutrition which had not yet been approved by the Senate Curriculum Committee. However, the Senate Admissions Committee had considered proposed revisions to the admission requirements and recommended approval. Dr. Harrison noted that admission to the M.Sc. program now requires an overall average of at least 76%, bringing this into line with the Faculty of Graduate Studies' revised requirements for admission.
Dr. Harrison  
Dr. Rosengarten  

That Senate approve proposed revisions to the admission requirements for the M.Sc. and Ph.D. in Human Nutrition.  

Carried.

PUNJABI 11 AND 12

The committee recommended approval of a proposal to recognize two new high school courses, Punjabi 11 and 12, as outlined below:

1. That Punjabi 11 be accepted by UBC as an approved Grade 11 language course.
2. That Punjabi 12 be accepted by UBC as an approved examinable Grade 12 course.
3. That Punjabi 11 be accepted by UBC as a Language 11 course satisfying 6 credits of the Faculty of Arts language requirement.

Dr. Harrison  
Mr. Gorman  

That Senate approve the proposal to recognize two new high school courses, Punjabi 11 and 12, as outlined above.  

Carried.

BASIS OF ADMISSION FOR TRANSFER STUDENTS

The committee recommended approval of the following changes to the Calendar statement on Applicants from a College or University: (changes in italics)

The minimum academic standing to qualify for admission to the University as a transfer student is successful completion of 24 transferable credits, with a "C" average
(60% where 50% is a passing...F=O). Applicants presenting fewer than 24 credits are evaluated on the basis of both final secondary school grades and the partial post-secondary studies completed. Unless otherwise prescribed...credits."

Because of enrolment limitations...to which they seek admission. To be eligible for second year, applicants...year. Applicants to third year...year.
Dr. Harrison
Mr. Leung

That the proposed changes to the Calendar statement on Applicants from a College or University be approved.

Carried.

FACULTY OF DENTISTRY - APTITUDE TESTING
The committee recommended approval of a proposed change to the Calendar statement on Aptitude Testing. Dr. Harrison explained that the proposed change would extend the length of time in which the Canadian Dental Association Dental Aptitude Test can be taken. The statement reads as follows:

Applicants must have completed the Canadian Dental Association Dental Aptitude Test within the previous five years before the application deadline. Applicants may elect to take the DAT test again after the application deadline; however, the results will not be used in determining which applicants will be offered an interview that year. Information and application forms etc.

Dr. Harrison
Dr. MacEntee

That the proposed change to the Calendar statement on Aptitude Testing be approved.

Carried.

FACULTY OF DENTISTRY - CHANGE TO THE ADMISSION REQUIREMENTS FOR THE INTERNATIONAL DENTAL DEGREE COMPLETION PROGRAM
Dr. Harrison explained that students entering this program are accepted into the Third and Fourth Year of the Dental Degree Program and go through a series of assessments and evaluations prior to entry into the clinical part of the program. Difficulties were encountered with some students this year in terms of English language proficiencies. In an effort to come up with a solution, the Faculty of Dentistry propose to change the admission requirements, as follows:
Applicants must

1. participate in a two week pre-clinical practice
2. undertake a personal interview at UBC
3. undertake an interview and demonstrate competence in verbal communication skills in English by reaching level 5 or better on the Placement Interview Test Rating Scale of the English Language Institute at UBC, or its equivalent.

English is the medium of instruction in Dentistry and communication skills are necessary to function effectively in the clinical setting. This requirement in English communication skills is in addition to the TOEFL.

Dr. Harrison
Dr. MacEntee

\{ That the proposed change to the admission requirements for the International Dental Degree Completion Program be approved. \}

Carried.

FACULTY OF GRADUATE STUDIES - ADMISSION REQUIREMENTS FOR A MASTER OF ARTS IN CHILDREN’S LITERATURE, AND FOR A JOINT M.A.S./M.L.I.S. DEGREE PROGRAM

The committee recommended approval of the following admission requirements for a proposed Master of Arts in Children’s Literature and a joint M.A.S./M.L.I.S. degree program:

**Master of Arts in Children's Literature**

For admission to the M.A. program, a candidate must:

1. possess a bachelor's degree from a recognized university in a relevant discipline or in an area which is regarded as appropriate by the SLAIS Admissions Committee for the program;
2. have achieved a minimum overall average in the B+ grade range (76% at UBC) in third and fourth year level courses of a bachelor's degree;
3. show promise of success or superior accomplishment in one or more aspects of children's literature as attested by letters of reference.

An applicant possessing a bachelor's degree or its academic equivalent, who does not meet the requirements of point 2 above but has had sufficient formal training or relevant professional experience to offset such deficiencies, may be granted full or provisional admission on the recommendation of the Director of the School and the approval of the Dean of the Faculty of Graduate Studies.
Joint M.A.S./M.L.I.S. degree program

For admission to the Joint Degree Program, a candidate must:

1. possess a bachelor's degree from a recognized university in a discipline acceptable to the SLAIS Admissions Committee for the program;
2. have achieved a minimum overall average in the B+ grade range (76% at UBC) in third and fourth year level courses of a bachelor's degree;
3. show promise of superior professional performance as attested by letters of reference.

An applicant possessing a bachelor's degree or its academic equivalent, who does not meet the requirements of point 2 above but has had sufficient formal training or relevant professional experience to offset such deficiencies, may be granted full or provisional admission on the recommendation of the Director of the School and the approval of the Dean of the Faculty of Graduate Studies. An applicant possessing a bachelor's degree or its academic equivalent, who does not meet the requirements of point 2 of the previous sentence, may be permitted to register as a Qualifying student for no more than one year on the recommendation of the Director of the School and the approval of the Dean of the Faculty of Graduate Studies. Satisfactory completion of a qualifying year neither guarantees subsequent admission to the Joint Degree Program nor substitutes for any of its courses.

\[ \text{Dr. Harrison} \]
\[ \text{Dean Neuman} \]

\{ That the admission requirements for a Master of Arts in Children's Literature, and for a joint M.A.S./M.L.I.S. degree program be approved. \}

Carried.

FACULTY OF PHARMACEUTICAL SCIENCES - PROPOSED REVISIONS TO ADMISSION REQUIREMENTS

Dr. Harrison explained that the proposed revisions to admission requirements focus on demonstration of English language proficiency. He noted that the Faculty had chosen a different route than that of the Faculty of Dentistry in trying to ensure that students are informed beforehand of the requirements, which the Faculty hopes will guarantee the success of students in their program. Dr. Harrison stated that the program is undergoing some dramatic changes in pedagogy which include greater
reliance on problem-based learning, group interactions, oral presentations and written assignments, and noted that the clerkship part of the program is also becoming increasingly important. Dr. Harrison pointed out that the major change being proposed is to require students either to have completed at least six years of full-time education in English or to provide evidence of completion of the Test of English as a Foreign Language with a score of 600, and in addition, two components which are not required as basic admission to the university at the moment, one being a Test of Spoken English and the other a Test of Written English. Students enter this program after completing one year in basic science, so students currently entering UBC with five years of education in English will (after they have finished first year) have satisfied admission to group A but other students will have this separate requirement. Dr. Harrison noted that there are several other changes to the admission procedures such as a Pharmacy Admission College Test, and the submission of résumés and letters of reference in an organized fashion according to forms provided by the Faculty of Pharmaceutical Sciences.

Dr. Harrison
Dean Abbott

That the proposed revisions to the admission requirements for the Faculty of Pharmaceutical Sciences be approved.

Mr. Mui spoke against the proposal, expressing concern at the proposed minimum score of 55 in the Test of Spoken English (TSE). He said that recent immigrants with just two years in high school before they enter first year Science only have three years to prepare for the TSE. Mr. Mui felt that a score of 55 was excessive in view of that fact that it was generally accepted that it takes seven years to master a spoken language.
That the motion be tabled.

Mr. de Pfyffer

Mr. Mui

That the motion be referred back to the Senate Admissions Committee.

Mr. de Pfyffer

Mr. Mui

Carried.

FACULTY OF SCIENCE - THIRD YEAR STANDING IN BIOLOGY

The committee recommended approval of a proposal to include in the Calendar the following paragraph on limitation of enrolment in the Biology undergraduate program under the heading Third Year Standing in Biology:

Enrolment in the Biology Program is limited. Acceptance into the third year of the Biology Program requires concurrent registration in or prior credit for one of the three physiology courses: BIOL 350, 351, or 353. Students are not permitted to take more than one of these three courses.

That the proposed Calendar statement on Third Year Standing in Biology be approved.

Dr. Harrison

Dr. Berger

Carried.

FACULTY OF SCIENCE - CLARIFICATION OF CALENDAR STATEMENT ON LIMITATION OF ENROLMENT

The committee recommended approval of the following revised Calendar statement on limitation of enrolment in the Faculty of Science:

Enrolment in the Faculty of Science is limited and admission to the Faculty does not guarantee that space will be available in any specific program, course or section. Where the limitation of enrolment becomes necessary, the criteria for implementation normally are academic standing in the preceding winter session and grades in prerequisite courses. Students are encouraged to register on their assigned date of registration.
Dr. Harrison explained that the revised statement makes clear that there could be limitations not only in courses but also in programs and sections of courses, and encourages students to register as soon as they are eligible.

\[
\text{Dr. Harrison} \quad \text{Dr. Bluman} \quad \{ \text{That the revised Calendar statement on limitation of enrolment in the Faculty of Science be approved.} \}
\]

Carried.

FACULTIES OF SCIENCE AND MEDICINE - DEPARTMENT OF BIOCHEMISTRY AND MOLECULAR MEDICINE - ADMISSION TO PROPOSED INTERNSHIP EDUCATION PROGRAM

The committee recommended approval of the following statement on admission to the Internship Education Program:

Acceptance into the program is after completion of the third year major or honours program in Biochemistry. Acceptance is based upon academic standing and general suitability to perform in a technical research environment.

\[
\text{Dr. Harrison} \quad \text{Dr. Bluman} \quad \{ \text{That the admission statement for the Internship Education Program in the Department of Biochemistry and Molecular Medicine be approved.} \}
\]

Carried.

Vice President McBride said there was considerable concern about the validity of TOEFL scores as a predictor of success in university, and there was a growing body of literature which has looked at it in a semi-statistical way. Vice President McBride suggested that the Senate Admissions Committee should look into the issue of the use of TOEFL scores and provide Senate with some guidance.
Dr. Harrison stated that a sub-committee of the Senate Admissions Committee has been working on the general issue of English language proficiency. He said that the subcommittee will be looking at an interim report next week and hoped that new recommendations could be brought to Senate in the near future.

Dr. May pointed out that some Faculties and Schools are accountable to others with regard to fitness for professional practice and requested that the Senate Admissions Committee include in its discussions non-academic admission criteria for first professional degrees at the undergraduate level.

Dean Sheehan reminded Senate that when the Ritsumeikan program was established some years ago there was a strenuous debate about the use of TOEFL.

Mr. Murphy
Ms. Sonik

That the Senate Admissions Committee examine the feasibility of establishing a university-wide policy on the introduction of non-academic admissions criteria for undergraduate first degree Faculties.

Carried.

Continuing Studies
DIPLOMA IN FOREST ENGINEERING
Dr. Vanderstoep, chair of the committee, presented a proposal to establish a Diploma in Forest Engineering. Dr. Vanderstoep explained that the proposal was in response to a need for professionals in forest engineering to upgrade their skills and knowledge following completion of their formal education. In April of 1996, the Institute of Forest Engineering in British Columbia was established by the co-operative effort of two professional associations. The goal of this institute is to improve forest practices in British Columbia through advanced continuing
education. It is this particular institute which has developed the diploma program for professional foresters, engineers and geo-scientists. Dr. Vanderstoep drew attention to page 4 of the proposal which explains the purpose of the program, and to the admission requirements contained in the Calendar statement on page 3. He explained that the course requirements consist of six course modules, each of a two week duration, with a total credit equivalent of thirty. Dr. Vanderstoep stated that the program was unique in the province and that it fits in well with the mission of the University, as well as with the mission of the Faculties of Forestry and Applied Science. Dr. Vanderstoep stated that the program meets a need which has been expressed quite widely through supporting letters from outside agencies and individuals who work in the forest industry. Furthermore, the program meets the guidelines for diploma programs approved by Senate, which include consideration by the chair of the Senate Curriculum Committee who has indicated by way of letter that he sees no problem with the proposal.

Dr. Vanderstoep
Dean Binkley

That Senate adopt the proposal for a Diploma Program in Forest Engineering.

In response to a query about the content of the program, Dean Binkley explained that the area of forest regeneration is covered in the Diploma Program in Advanced Silviculture which focuses on regeneration. [The proposal also contained new courses: FEBC 401, 402, 403, 404, 405, 506.]

Curriculum Committee

See Appendix A.

Dr. Berger, chair of the committee, presented the report on curriculum proposals from the various Faculties and Schools.
FACULTY OF APPLIED SCIENCE
The committee recommended approval of curriculum proposals from the Faculty of Applied Science.

Dr. Berger
Dr. Adebar

That the proposals of the Faculty of Applied Science be approved.

Carried.

FACULTY OF ARTS
The committee recommended approval of curriculum proposals from the Faculty of Arts. Dr. Berger highlighted parts of the Faculty of Arts report, drawing attention to the mammoth revision of course offerings in the Department of Asian Studies.

Dr. Berger
Dean Neuman

That the proposals of the Faculty of Arts be approved.

In response to a query concerning the description of GERM 431, Dean Neuman confirmed that the word "communicative", which appears in the description of GERM 432, should also be included in the description of GERM 431.

The motion was put and carried.

FACULTY OF FORESTRY
The committee recommended approval of curriculum proposals from the Faculty of Forestry.

Dr. Berger
Dean Binkley

That the proposals of the Faculty of Forestry be approved.
Dr. Adebar drew attention to WOOD 435 Quality Engineering, stating that it is really an engineering course, also that there had been no consultation with the Faculty of Applied Science and that the course has the same title as MMAT 493.

In amendment:

\[
\begin{align*}
\text{Dr. Adebar} & \quad \text{That approval of WOOD 435 be withheld.} \\
\text{Dr. Ito} & \quad \text{} \\
\end{align*}
\]

Dean Binkley stated that the course was essential to the Wood Processing Program. He explained that the instructor of the course has been working on other quality engineering courses that are taught to ensure that there is no unnecessary duplication.

\[\text{The amendment carried.}\]

\[\text{The motion, as amended, was put and carried.}\]

FACULTY OF GRADUATE STUDIES
The committee recommended approval of curriculum proposals from the Faculty of Graduate Studies.

\[
\begin{align*}
\text{Dr. Berger} & \quad \text{That the proposals of the Faculty of Graduate Studies be approved.} \\
\text{Dean Granot} & \quad \text{} \\
\end{align*}
\]

Dr. Benbasat drew attention to the proposed changes to the Calendar statement for the M.F.A. program in Creative Writing. He noted that the Canada Council is sponsoring PRISM and that one of their requirements is that these funds cannot be used for training. However, it appears from the proposal that those working on the
PRISM INTERNATIONAL MAGAZINE will get a six credit reduction from their program requirements. Dr. Benbasat asked how this could be possible.

Professor Burns suggested that this matter be tabled pending a fuller explanation of the ramifications of the proposed change.

Prof. Burns  
Dr. Benbasat  

That the proposed changes to the Calendar statement for the M.F.A. program in Creative Writing be tabled.

Carried.

The motion to approve the curriculum proposals from the Faculty of Graduate Studies, with the exception of the proposed changes to the Calendar statement for the M.F.A. program in Creative Writing, was put and carried.

FACULTY OF PHARMACEUTICAL SCIENCES

The committee recommended approval of proposed changes to PHAR 455.

Dr. Berger  
Dean Abbott  

That the proposed changes to PHAR 455 be approved.

Carried.

SCHOOL OF REHABILITATION SCIENCES

The committee recommended approval of curriculum proposals from the School of Rehabilitation Sciences.

Dr. Berger  
Dr. Gilbert  

That the proposals of the School of Rehabilitation Sciences be approved.

Carried.
FACULTY OF SCIENCE

Dr. Berger called on Dr. Harrison to speak to a correction to the statement under Major in Cell Biology and Genetics. Dr. Harrison explained that footnote 3 should read, "Must be taken in third year." and that the remainder of the courses listed should be deleted. This will require a change to an earlier line in the program which will now state: "Biology 350."
FACULTY OF AGRICULTURAL SCIENCES
The committee recommended approval of curriculum proposals from the Faculty of Agricultural Sciences.

Dr. Berger  
Dean Quayle  
\{ That the proposals of the Faculty of Agricultural Sciences be approved. 

Carried.

FACULTY OF DENTISTRY
The committee recommended approval of curriculum proposals from the Faculty of Dentistry.

Dr. Berger  
Dr. May  
\{ That the proposals of the Faculty of Dentistry be approved. 

Carried.

FACULTY OF EDUCATION
The committee recommended approval of curriculum proposals from the Faculty of Education.

Dr. Berger  
Dean Sheehan  
\{ That the proposals of the Faculty of Education be approved. 

Carried.

SCHOOL OF HUMAN KINETICS
The committee recommended approval of a proposed new course, HKIN 389. Dr. Berger reported that a proposed Calendar entry on Second Degree Requirements for the B.H.K. should be deleted.

Dr. Berger  
Dr. Schutz  
\{ That the proposed new course, HKIN 389, be approved. 

Carried.
FACULTY OF LAW

The committee recommended approval of a proposed change in credits for LAW 352.

Dr. Berger
Prof. Burns

That the proposed change in credits for LAW 352 be approved.

Carried.

FACULTY OF MEDICINE

The committee recommended approval of curriculum proposals from the Faculty of Medicine, including a new Internship Program in Biochemistry. Dr. Berger noted that the program had been approved by both the Faculty of Medicine and the Faculty of Science.

Dr. Berger
Dr. Gilbert

That the proposals of the Faculty of Medicine be approved.

Carried.

Registrar’s Report on editorial changes to Academic Regulations

See Appendix B.

A report on editorial changes to the Academic Regulations section of the Calendar had been circulated for information. Dr. Spencer informed Senate that there will be a statement in both the printed and the web version of the Calendar next year identifying the web version as the official version. There will be a note that changes may be made during the year and that people should refer to the web version if they are in doubt as to which one is official.

Academic Year 1998-99

A draft of the Academic Year for 1998-99 had been circulated for information.

Mr. Murphy drew attention to the fact that the February 1999 Senate meeting was scheduled during the mid-term break.
Mr. Murphy,  
Ms. Sonik  

{ That when the regularly scheduled meeting of Senate coincides with the mid-term break, the meeting of Senate be moved one week ahead or back, as appropriate.  

Carried.  

Academic Year 1998-2003  

A summary of starting and ending dates of the terms and examinations from 1998-2003 had been circulated for information.  

Dean Neuman drew attention to the fact that the last day of examinations in 2003 was shown as May 2nd. Dean Neuman said that this creates a problem in that contracts for teaching assistants end on April 30th. Dr. Spencer responded that this was a tentative schedule and that Dean Neuman's concerns would be addressed before the schedule is finalized.  

President's Report on the Visioning Process  

President Piper announced that after consulting with student senators with regard to the visioning process, it had been decided to hold an essay competition, details of which will be announced in UBC Reports and the Ubyssey. Students will be asked to participate by writing a 750 word essay on what kind of education UBC should provide to the incoming class of 2010. The first prize will be one term's tuition (one undergraduate and one graduate student), and for the runners-up (six undergraduate, three graduate) $100 certificates for the UBC Bookstore.  

Adjournment  

The meeting adjourned at 10:05 p.m.  

Next meeting  

The next regular meeting of Senate will be held on Wednesday, February 18, 1998.
Appendix A

COURSE AND CURRICULUM PROPOSALS

Faculty of Agricultural Sciences

INTERNATIONAL RESOURCE SYSTEMS

Change in program description

Faculty of Applied Science

BIO-RESOURCE ENGINEERING

New course BIOE 255 (2) Bio-Resource Engineering Laboratory 1
Deletion BIOE 250
Changes BIOE 251 - change description, prerequisite, hours
BIOE 285 - change hours, credits
BIOE 382, 471, 473, 482 - change prerequisite
BIOE 485 - add prerequisites

Program changes to second, third and fourth years

CHEMICAL ENGINEERING

Deletion CHML 358
Changes CHML 364 - change prerequisite
CHML 376 - change title, description, prerequisite, hours, credits

Program changes to second and third years

CIVIL ENGINEERING

Deletion CIVL 310

ELECTRICAL AND COMPUTER ENGINEERING

New courses ELEC 419 (5) Software Engineering Project
ELEC 458 (3) Power System Analysis
ELEC 459 (3) Computer Applications in Power Systems
ELEC 465 (3) Microcomputer Systems Design
ELEC 496 (6) Engineering Project
ELEC 497 (5) Systems Project

Changes ELEC 490, 491 - change title, description, credits
ELEC 280 - change title, credits, hours
ELEC 281, 379 - change title
ELEC 283, 466 - change description
ELEC 456 - change prerequisites

Program changes to second, third and fourth years

Deletions ELEC 380, 381, 382, 383, 389, 488, 489

ENGINEERING PHYSICS

Change in Calendar statement. Program changes to third and fourth years
GEOLOGICAL ENGINEERING

Program changes to second, third and fourth years

MECHANICAL ENGINEERING

New courses
- MECH 301 (2) Mechanical Engineering Laboratories III
- MECH 302 (2) Mechanical Engineering Laboratories IV
- MECH 357 (6) Engineering Design

Deletion
- MECH 261

Changes
- MECH 360 - change credits, hours
- MECH 380 - change credits, hours, prerequisites
- MECH 463, 492 - add prerequisite

Program changes to third and fourth years

METALS AND MATERIALS ENGINEERING

New courses
- MMAT 381 (1) Structure and Properties Laboratory
- MMAT 469 (3) Solidification

Changes
- MMAT 361 - change title, description, credits, hours
- MMAT 365 - add prerequisite
- MMAT 378 - change description, credits, hours

Program changes to third year

Deletions
- MMAT 377, 462

MINING AND MINERAL PROCESS ENGINEERING

New courses
- MMPE 404 (3) Mine Management
- MMPE 435 (3) Plant and Process Design

Changes
- MMPE 302 - change title, description
- MMPE 303 - change title, add prerequisite

EDITORIAL CHANGES TO THE ACADEMIC REGULATIONS SECTION OF THE CALENDAR

The material in the "Examinations" section (page 15) has been rearranged for clarity. "Grading Practices" is now a separate section, rather than a sub-section within Examinations. Definitions of a number of standings that appear on the back of official transcripts have been added.

There are no changes in policy. New material is indicated by a vertical bar in the left margin. The revised sections follow.

Examinations

Formal examinations are held in most courses in December and April. Other tests are held at the discretion of the instructors and faculties concerned. All prescribed examinations are mandatory. Students who miss an examination either in December or April because of medical, emotional or other problems should apply as soon as possible to the dean of their faculty or the director of their school for academic concession (see Academic Concession).

Senate Policy on Examinations

The following regulations were approved by Senate in October 1976 and amended in December 1990 and apply generally across campus except to the Faculty of Graduate Studies and to postgraduate professional faculties.

1. Faculties are urged to make full use of the formal examination periods, both in December and in April, and unless the relevant dean and head, for sound academic reason, grant exemption, all courses designed for first- and second-year students be examined in December as well as April.

2. The holding of any examination, formal or informal, during the two weeks preceding the formally scheduled examinations of December and April is forbidden. (This recommendation does not apply to regular weekly or bi-weekly tests or to traditional and current practices in laboratories.)

3. Scrupulous adherence by invigilators (members of faculty and other invigilators) to the regulations governing the invigilation of examinations is mandatory.

4. Smoking shall not be permitted during the examinations nor during lectures. (This applies equally to members of faculty and to students.)

5. Faculties are urged to curtail the use of the "take-home" examination, both in the extent of its administration and in the weight assigned to it in the calculation of marks.

Rules Governing Formal Examinations

1. Each candidate must be prepared to produce, upon request, a Library/AMS card for identification.

2. Candidates are not permitted to ask questions of the invigilators, except in cases of supposed errors or ambiguities in examination questions.

3. No candidate shall be permitted to enter the examination room after the expiration of one-half hour from the scheduled starting time, or to leave during the first half hour of the examination.
4. Candidates guilty of any of the following, or similar, dishonest practices shall be immediately dismissed from the examination and shall be liable to disciplinary action.
   
a. Making use of any books, papers or memoranda, calculators, computers, audio or video cassette players or other memory aid devices, other than those authorized by the examiners.

b. Speaking or communicating with other candidates.

c. Purposely exposing written papers to the view of other candidates. The plea of accident or forgetfulness shall not be received.

5. Candidates must not destroy or mutilate any examination material; must hand in all examination papers; and must not take any examination material from the examination room without permission of the invigilator.

Examination Results

Instructors may, subject to the policy in their department, school or faculty, post student grades using lists showing student numbers in numeric order. Student names must not be shown. If instructors intend to post grades it is their responsibility to ensure that all students are advised of this before any grades are posted. Students may request that their grades not be posted.

Departments, schools or faculties may ask professors not to post grades until they have been reviewed. All grades must be clearly labeled "Unofficial".

Official grades are mailed to students following the Winter and Summer Sessions. Any student who must meet an application date for another institution before their official grades are received should contact the transcript clerk in the Registrar's Office to make arrangements to meet the deadline. Official grades for Guided Independent Study courses are mailed to students as soon as possible after they are approved.

Students can contact the on-line Student Service Centre ://www.student-services.ubc.ca/cgi-win/servmall.exe or call the Student Information System at (604) 280-8228 for grades that are on the Student Information System and have been approved for release.

Viewing Marked Examinations

A final examination becomes the property of the University and must remain in the possession of the University until destroyed or otherwise disposed of. No later than one month from receipt of end of session results a student may make written application to the department head, director or dean, who will make every effort to arrange for the student to view her or his marked final examination paper(s) with the course instructor or designate. The purpose of this exercise is purely pedagogic and distinct from the "review of assigned standing".
Deferred and Supplemental Examinations

Deferred and Supplemental examinations will be held in late July or early August. Applications must be made to the Registrar’s Office by June 20, 1997 and must be accompanied by the required fee.

Examinations may be written at the University and at standard centres in Campbell River, Cranbrook, Dawson Creek, Kamloops, Kelowna, Kitimat, Nanaimo, Nelson, Penticton, Port Alberni, Powell River, Prince George, Prince Rupert, Vernon, Victoria, Whitehorse, YT and Williams Lake. (This list of locations is subject to change.)

In special cases a student may be permitted to write examinations at a university outside British Columbia or at a special centre other than a university if satisfactory arrangements can be made within Canada. Since permission is contingent on completion of arrangements, only early applications to write in special centres will be considered.

In the event that a candidate is unable to write an examination, a refund of the required fee will be considered if the candidate submits an adequate explanation to the Registrar prior to the scheduled examination period.

Supplemental Examination Policy

Supplemental examinations regulations vary among faculties and are described in the appropriate faculty or school entry. Students are governed by the regulations of the faculty or school in which they are registered.

Supplemental examinations are not available in all faculties or in all courses. In courses in which proficiency is judged on a continuing basis throughout a term, or in which final examinations are not given, or in Commerce and Pharmaceutical Sciences courses where the final examination contributes less than 40% of the course grade, no supplemental examinations are provided.

Supplemental examinations are not granted to students registered in a graduate program. However, a course in which a grade of less than 65% was obtained may be repeated for a higher standing if recommended by the department and approved by the dean of Graduate Studies. In a course that is repeated, both marks will appear on the transcript. The higher mark will be used to determine promotion in a program and in any decision to admit a student or withdraw a student from a program. Averages calculated for other purposes will include both marks.

Where a supplemental examination is provided a student may write it in an attempt to obtain "higher standing" in the course concerned. The result of the supplemental examination will be shown on the student’s record as an additional entry. In some situations a higher mark may enhance a student's chance of meeting some specific program requirement.

In the Summer Session a student who satisfactorily completes a six-credit course will be granted a supplemental examination in a second subject if the final mark is not less than 40% in the second subject.

In all but the final year a candidate who has been granted a supplemental may write it once only. If the candidate fails, the course must be repeated or a permissible substitute taken. Normally in the final year a second supplemental examination may be written.
If a supplemental examination is not written by the end of the next regular supplemental examination period for that session, the supplemental standing will be removed.

If a student, because of exceptional circumstances, is permitted to postpone a supplemental beyond the first regular supplemental examination period the student will be responsible for the content of the course as currently offered. If the course is discontinued, the supplemental privilege may be cancelled.

**Grading Practises (new section title with a reference in the index)**

In most faculties, individual courses are normally graded as follows:

<table>
<thead>
<tr>
<th>Percentage</th>
<th>Letter Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>90-100%</td>
<td>A+</td>
</tr>
<tr>
<td>85-89</td>
<td>A</td>
</tr>
<tr>
<td>80-84</td>
<td>A-</td>
</tr>
<tr>
<td>76-79</td>
<td>B+</td>
</tr>
<tr>
<td>72-75</td>
<td>B</td>
</tr>
<tr>
<td>68-71</td>
<td>B-</td>
</tr>
<tr>
<td>64-67</td>
<td>C+</td>
</tr>
<tr>
<td>60-63</td>
<td>C</td>
</tr>
<tr>
<td>55-59</td>
<td>C-</td>
</tr>
<tr>
<td>50-54</td>
<td>D</td>
</tr>
<tr>
<td>0-49</td>
<td>F (Fail)</td>
</tr>
</tbody>
</table>

The Faculties of Dentistry, Medicine and Graduate Studies and the Schools of Library and Archival Studies, Nursing, and Rehabilitation Sciences, define Fail ("F") as below 60%.

Faculties, departments and schools reserve the right to scale grades in order to maintain equity among sections and conformity to University, faculty, department or school norms. Students should therefore note that an unofficial grade given by an instructor might be changed by the faculty, department or school. Grades are not official until they appear on a student's academic record.

A few programs of study make provision for an "honours standing". This is explained in the appropriate faculty or school entry. However, in most faculties where "honours" is used it is applied to a study program where expectations in terms of achievement and level of study are higher than in other programs.

**Standings**

**Aegrotat (AEG):** allows a student credit for a course even though the course requirements have not been completed due to medical, emotional or other difficulties. This standing is awarded only if the course instructor and the dean agree that the student has demonstrated the capacity to deal with the course material satisfactorily. When AEG standing is awarded, a letter grade is assigned. This will be converted to the minimum percentage for that category for the calculation of averages.
Audit (AUD): granted to students who have been officially approved as audit status. These students are expected to complete all course requirements except the final exam, and may be given Fail (F) standing if their performance is not satisfactory. Refer to "Classification of Students" in Undergraduate Admissions section.

Exempt (EX): student has registered for a required course from which she or he is exempt.

Adjudicated pass (J): credit is granted and the course need not be repeated although it may not normally qualify as a prerequisite for further work. (The grade assigned by the instructor is used in the calculation of averages.)

Pass (P) or Fail (F): no grade assigned, excluded from calculation in all averages; P - requirements of subject completed satisfactorily, credit granted where applicable; F - fail

Supplemental (S): failure, no credit, supplemental privilege granted. Refer to Supplemental Examinations section.

Deferred (SD): may be granted when a student has a valid reason for not completing course requirements as scheduled and does not qualify for Aegrotat standing. Students granted Deferred standing in Winter Session courses must complete all outstanding course requirements by August 23 following. Students granted Deferred standing in Summer Session courses must complete all outstanding work by December 25 following. Students granted Deferred standing are responsible for making satisfactory arrangements with their instructors for completion of outstanding course requirements. If a student fails to complete deferred requirements by the dates specified, the Deferred standing will be replaced with a grade or standing that reflects requirements completed in the course. Students unable to meet the specified deadlines because of further medical, emotional or other difficulties must make an additional application for Academic Concession no later than August 31 for Winter Session courses or December 31 for Summer Session courses following the original deferral. Refer to Deferred and Supplemental Examinations section.

Thesis (T) in Progress (T): graduating essay not submitted; course continuing. If a student in a baccalaureate program who receives a "T" standing in a graduating essay or other course approved by the faculty completes the course within 12 months of the end of the term in which the student first registered for the course the "T" standing will be replaced by the grade assigned. If the course is not completed within 12 months the "T" standing will be replaced by a grade of zero (or "F" standing in a Pass/Fail course).

Withdrawal (W): official withdrawal. Refer to "Withdrawal" in this section.
